The human heart—that restless thing ! The tempter and the tried; The joyous, yet the suffering-The source of pain and pride; The gorgeous thronged—the desolate, The seat of love, the lair of hate-Self-stung, self-deified! Yet do we bless thee as thou art, Thou restless thing-the human heart!

The human soul-that startling thing ! Mysterious and sublime! The angel sleeping on the wing, Worn by the scoffs of Time-The beautiful, the veiled, the bound, That earth-enslaved, the glory-crown'd, The stricken in its prime! From heaven in tears to earth it stole,

That startling thing-the human soul! And this is man-Oh! ask of him, The gifted and forgiven-While o'er his vision, drear and dim, The wrecks of time are driven; If pride or passion in their power, Can chain the time or charm the hour, Or stand in place of heaven? He bends the brow, he bows the knee-

"Creator, Father ! to none but thee !"

THE NEW WORLD AND THE NEW SHERIFF. Our

new sheriff was somewhat outwitted on Sunday last, under the following circumstances: The steamship New World, just finished and ready for sea, intended for the California station, lying at the dock, was levied upon by the sheriff, on Saturday, a week ago, for a claim of \$50,000, said to be due a Mr. Furnace. Mr. Deputy Sheriff Cunningham served the process, and placed the vessel, as she laid at the dock, under the charge of several aids, in order to keep possession. So far so good. But on Sunday morning, Mr. Cunningham came on board to see if all was right, about eleven o'clock, and in a short time thereafter, found that the engineer was firing up. The captain was on board, and Mr. Cunningham remarked to him :-" Why, captain, what are you firing up for ?" "Oh," replied the captain, "the machinery, by laying at the dock, has become a little rusty, and we want to keep her moving, that she won't spoil." Thus the matter rested, and the conversation turned on some other tonic: when, all at once, the ropes were cast off from the dock, the engine set in motion, and out shot the vessel into the stream. "What's that for ?" said Mr. Cunningham to the captain. The captain replied, laughing, "Oh, don't be afraid, Mr. Sheriff, we only want to cruise around a little, instead of lying at the dock; there is no business doing on Sunday, and we may as well do this as anything else." Still, however, this reply did not appear to satisfy Mr. Cunningham, and he began to feel very uneasy. The captain sailed down the East river, round in front of the Battery, on the North river a short distance, and then turned, sheriff that the captain intended to turn back to the the latest styles of dock. By this time, however, the engineer had got quite a good head of steam on, and on passing the Quarantine, Mr. Cunningham said to the captain, " I in making the captain put back. No sooner was this in exchange. attempt made, than the captain gave a whistle, which signal was answered immediately, and the whole of the crew, who were previously concealed, sprang upon deck, armed with bowie knives, pistols, cutlasses, Agent, Commission Merchant and Dry Goods and other deadly weapons, to the aid of their captain. At the appearance of this large body of desperate looking men, Mr. Cunningham and his aids found iff and his aids down the side of the vessel into a style, putting on a little more steam, apparently to may entrust to him their orders. aid them in their flight to California. Mr. Cunningham and their aids were compelled to trudge some three miles, almost up to their knees in mud, before reaching the ferry to embark for New York. We presume the sheriff will, in future, be more careful in allowing the engineer on the next vessel they have in charge, to work the rust off the machinery.

THE ROUTES TO CALIFORNIA. Among the numerous California adventurers, it will not perhaps be uninteresting to know the quickest, cheapest and best routes to the gold regions. There are now running permanently the following first class steamers between New York and Chagres, viz: The Empire City and Crescent City of Howard and Son's Line. The Ohio and Georgia of M. O. Robert's Line. The Cherokee and Philadelphia of Howland and Aspinwall's Line. The whole of which are all substan- Also, a full supply of the most popular Patent Medcines, tial and fast steamers, and commanded by men of the following of which he will sell per Gross or Dozen at

New York Herald.

in the steerage, and \$90 to \$125 in the cabins. The reth's Pills, and Beckwith's Anti-Dyspeptic Pills. steerage includes mattresses on board. The prices bedding and board. By the Aspinwall line, aftersaloon, \$125; forward saloon, \$100; lower cabin, \$ 90. The prices by the Law line are lower than by the others, because these steamers do not go direct. Cabin passengers are allowed eight, and steerage CLOTHING ESTABLSHMENT,

passengers six cubic feet of baggage without charge. Preight is taken to some extent at 70 cents per foot, but the difficulty of getting it acress the Isthmus is very great. The cost is about 25 cents per pound. The passage across is made in two or three days,

at a cost of about \$ 25, by the steamer Orus or by eances to Gorgona or Cruces, and thence on foot, or by mules and horses to Panama, at which place the "Tribune" says by hiring a room a person can live for about \$4 or \$5 per week, by boarding at a resteraunt. On the Pacific the following steamers are running, and the balance are to be there soon: The Oregon, Panama, California, Tennessee, Unicorn and Carolina of Howland and Aspenwall's line, Sarah Sands and New Orleans, of Howard & Sons line, Columbus and Isthmus, of M. D. Robert's line-ad-Horn to join Howard & Sons line.

The prices on the Pacific are the same in all the above steamers: First cabin, \$ 300; second cabin or steel, iron, &c. eame price.

The Aspinwall steamers are full on the Pacific side, up to May. The Howard steamers are also full to May, and it is doubtful if a steam passage could be obtained from Panama until after April. We believe sailing vessels are running between Panama and San Francisco, and passage can be obtained at from \$150 to \$200.

Those who prefer a voyage around the Horn can find at any time fast and substantial vessels at this port about to sail for San Francisco. The time of the royage ranges from five to six months, and the price is \$ 100 to \$300, according to the accommodations. Freight 65 and 70 cents per foot. There are some fifty-two vessels of all sizes, including steamers, up at this port for California.

almost total blindness in one of them, and disfiguring her whole face. I employed two physicians to attend her, who exhausted their utmost skill to give her relief, but it all proved useless, and finally one of them remarked to me that he had known of some striking cures effected by Sands' Sarsaparilla, and advised me to try it. I obtained one bottle, which she commenced using, and before it was all used up it had tained one bottle, which she commenced using, and before it was all used up it had effected an entire cure. It is now over four years since she was cured, and there has been no reappearance of the disease, and we are satisfied that it is a perfect cure. It gives me great pleasure to add that I can recommend it to every sufferer from any similar complaint.

DEBILITY & A. A.

This Medicine has acquired a very ex-

ended and established reputation wherever

it has been used, based entirely on its own merits,

which its superior efficacy has alone sustained. The un-

fortunate victim of hereditary disease, with swollen glands, con-

tracted sinews, and bones half carious, has been restored to health

and vigor. The scrofulous patient, covered with ulcers, loathsome to himself and his attendants, has been made whole. Hundreds of persons, who had grouned

hopelessly for years under cutaneous and glandular disorders, chronic rheumatism,

and many other complaints springing from a derangement of the securive organs

and the circulation, have been raised as it were from the rack of disease, and now,

with regenerated constitutions, gladly testify to the efficacy of this inestimable

preparation. The testimony of those who have been cured by its use, with their

residences, has been published from time to time; and were it desirable, a mass

of the most overwhelming testimony could be brought forward, proving most con-

clusively its inestimable value. The afflicted, and those who have not used this

CANCEROUS ULCER CURED, OF SEVEN YEARS' STANDING.

This cure was effected in July, 1844; there have been no symptoms of a return, and her health still continues good, July, 1848.

Messrs. Sanns:—Gentlemen—I consider it but an act of justice to you to state the following facts in reference to the great benefit I have received in the cure of an ob-

stinate CANCEROUS ULCER on my breast.

I was attended eighteen months by a regular and skilful physician, assisted by the advice and counsel of one of our most able and experienced surgeens, without the least benefit whatever. All the various methods of treating cancer were resorted to:

advice and counsel of one of our most able and experienced surgeons, without the least benefit whatever. All the various methods of treating cancer were resorted to; for five weeks in succession my breast was burned with caustic three times a-day, and for six it was daily syringed with a weak solution of nitric acid, and the cavity or internal ulcer was so large that it held over an ounce of the solution. The doctor probed the ulcer and examined the bone, and said the disease was advancing rapidly to the lungs, and if I did not get speedy relief by medicine or an operation, the result would be fatal. I was advised to have the breast laid open and the bones examined; but finding no relief from what had been done, and feeling I was rapidly getting worse, I almost despaired of recovery, and considered my case nearly hopcless.

Seeing various testimonials and certificates of cure by the use of Sanns' Sarsara-Rella, in cases similar to my own, I concluded to try a few bottles, several of which were used, but, from the long deep-seated character of my disease, produced no very decided change. Considering this as the only probable cure for my case, I persevered until the disease was entirely cured. It is now over eleven months since the cure was completed; there is not the slightest appearance of a return. I therefore pronounce myself well, and the cure entirely effected by Sands' Sarsararilla, as I took no other medicine of any kind during the time I was using it, nor have I taken any since.

Please excuse this long-deferred acknowledgment, which I think it my duty to make. Your valuable Sarsaparilla cured me, with the blessing of Divine Providence, when nothing else could; and I feel myself under lasting obligations to you. I can say many things I cannot write, and I do most respectfully invite ladies afflicted as I have been, to call upon me, and I will satisfy them fully of the truth as stated abovo, and many other things in reference to the case.

NANCY J. MILLER 218 Sullivan-street.

LIVER COMPLAINT.

The following is an extract from a letter received from Rev. William Galusha:-

Messrs. Sanns :- I have been afflicted with a severe pain in my side, occasioned

Messrs. Sands:—I have been afflicted with a severe pain in my side, occasioned by a diseased liver, for the last twenty years; suffering at times what language cannot convey; but since taking your Sarsaparilla I have been greatly relieved, so much so that I have been able to attend to my business, and preach occasionally, for the last fifteen months. I wholly discarded all other medicine, and thoroughly tried the Sarsaparilla, which I can recommend in truth and sincerity to all those who are in any way afflicted with any species of scrofulous complaints. There have been some remarkable cures effected by its use in this vicinity. Mrs. I. Shaw, by the use of six bottles, was restored to better health than she nad before enjoyed for ten years; and Mrs. W. Stevens, who had been severely afflicted with Erysipelas, was entirely cured by the use of a few bottles.

Yours truly, WM. GALUSHA.

CURE OF A SCROFULGUS AFFECTION OF THE EYES.

Messrs. Sands:—Gentlemen—My little daughter, when one year old, was attacked

nedicine, are invited to make a trial of its virtues, and appropriate to themselves the
